INDEX

INTRODUCTION

The Innovation and Entrepreneurship Development Centres (IEDC) are platforms set up in Engineering, Management, Arts & Science Colleges and Polytechnics with an aim to provide students an opportunity to experiment and innovate. Kerala Startup Mission has set up IEDCs in 226 institutions across the State which provide avenues for creative students to learn, collaborate and transform their innovative ideas into prototypes of viable products and services. IEDCs works as the first launch pad for a student's entrepreneurial journey and provide them with access to cutting edge technology, world class infrastructure, high quality mentorship, early risk capital and global exposure.
IEDC [Innovation and Entrepreneurship Development Cell] appeared for the very first time In our college in 2017.It's activities proved helpful for encouraging creativity among students & to promote startups.In 2018 we formed first Executive Committee and named as **"NEOTERIC"**.In 2019 IEDC NEOTERIC have 120 members including 7 executive members. Also we are work together for promoting innovation and startup from students to a great initiative in innovative ideas and startup field.

ORGANISED WORKSHOP

ETHICAL HACKING WORKSHOP

Ethical hacking workshop is conducted on 3rd July 2019 at CT Lab of College for promoting startups in cyber security field among student. These program is leaded by two mentors of startup company Eventoz. 90 students who where participated in program.Also they are encouraged in Cyber field Startups.

NETWORKING & ROUTER:

40 Students who participated in networking and router workshop.The workshop was held at software and hardware lab on 21&22 November by the mentor SHYAMLAL T PUSHPAN. The networking industry is no longer focused on hardware, and the **transformation** from hardware to software removes many of the major obstacles that networking startups faced in the past. Even the smallest of tech startups can enter the enterprise networking market and potentially shake up the entire industry. Several current trends offer networking startups new opportunities with the promise of using agility, focus and speed to market to catch the networking giants off guard.And they completed workshop successfully.

YIP: 3 Students where Participate in YIP state level evaluation

FUTURE IN VISION

As the future activities IEDC is aiming to develop some innovative projects which would be helpful for the students to acquire knowledge in different aspects , We are also planning to host a "TECH FEST" the coming academic year in our college itself which would help to give great exposure to our students & IEDC SRGPTC. The only need of students is to have a Fab Lab in our college which will help them very much to prototype their ideas or to make their explosive minds expand which would further help in the development of the college & the society as the college is located in between a bunch of young start-ups who need a space to explore themselves
