11. Anti-drugs awareness program
- 12: Expert Talk
- 13: Staff Training
14. Student Induction Program
15. Placement

Department Vision

Mould socially responsible, ethically strong and technically competent electrical and electronics engineers

Department Mission

M1: To educate, inspire and mentor students to produce quality professionals in the field of electrical and electronics engineering.

M2: To facilitate students to render services to the society through innovations and entrepreneurial activities.

M3: To encourage students to become lifelong learners.

Editorial Board

Mr. Lineesh A S (Staff Editor)

Mr. Anjo Antony Peter (Student Editor)

Ms. Maneesha E B (Student Editor)

MESSAGE FROM PRINCIPAL

It is with great pleasure that I welcome you to the inaugural edition of the Electrical Department Newsletter named “EMPOWER”. This new publication is an exciting step towards strengthening our community and keeping you informed about the dynamic and innovative work happening within the Electrical & Electronics Department. The main goal of the newsletter is to provide a platform that highlights the department’s achievements, shares important updates, and celebrates the contributions of our talented students and faculty.

In this debut issue, we have highlighted recent initiatives and technological advancements within the department. You will also find information on upcoming events, professional development opportunities, and resources designed to support students. Additionally, we are thrilled to feature profiles of our team members, showcasing the talent and hard work that drive our department forward.

I encourage you to explore this newsletter and take full advantage of the resources and information it provides. Your feedback and suggestions are highly valued as we strive to make this a valuable and engaging resource for everyone involved in our Electrical Department.

EMPOWER

NEWSLETTER OF DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

DECEMBER 2022
ISSUE: 01
VOLUME: 01

MESSAGE FROM HOD

I'm delighted to introduce the first issue of the department newsletter titled "EMPOWER" for the year 2022. This newsletter aims to keep us connected, informed, and inspired by highlighting department activities and acknowledges individual contributions. This publication marks a new chapter in our commitment to keeping everyone informed and engaged with the exciting developments within our department. As the Head of the Department, I am thrilled to have this opportunity to share our progress and celebrate the collective efforts of our dedicated team.

Your thoughts and suggestions are crucial as we aim to make this newsletter a valuable resource for everyone. I encourage you to dive into this first issue and share your feedback with us. Thank you for your continued dedication and enthusiasm. I look forward to many more issues filled with inspiring updates and stories.

I congratulate the editorial board of the department newsletter for their brilliant efforts to bringing out the department newsletter. I convey my good wishes to all the readers of the newsletter.

MESSAGE FROM EDITOR

Welcome to the inaugural edition of the EMPOWER. As the editor, I am thrilled to present this new platform designed to keep you informed and engaged with all the exciting developments within our department. Our goal is to create a vibrant and informative publication that highlights our achievements, ongoing projects, and the remarkable individuals who make our department stand out.

In this first issue, you will find a variety of content that captures the essence of our department's work. From the latest research breakthroughs and upcoming events to profiles of our exceptional faculty and students, we aim to showcase the diverse and dynamic aspects of our community. We hope this newsletter serves as both a valuable resource and a source of inspiration for everyone involved.

Your feedback is crucial as we continue to refine and enhance our newsletter. Please share your thoughts, suggestions, and ideas on how we can better serve your interests and keep you connected with the latest news. Thank you for your support and enthusiasm. We look forward to bringing you more engaging and informative updates in future editions.

FINISHING SCHOOL CLASSES

Department of Electrical & Electronics Engineering organized classes under finishing school scheme on different topics such as Fasten Your Belt by Dr. P V Joseph, Ethics, Values and Motivation by Mr. Venkitesh P S, Happy Learning and Goal Setting by Mr. Satheesh, Design Your Life by Mr. Pareedkunju and Be a Warrior by Mr. Anil Kurishingal for second semester from 02/03/2022 to 08/03/2022.
